

GAINING NEW STUDENTS WITH PIANO LESSONS AUSTRALIA

HOW IT WORKS

STEP ONE

Once you've applied and passed the interview stage, we will create you an account in our professional timetabling and invoicing software. Here you can set your own prices, policies and let us know how far you are willing to travel to conduct lessons in students own homes.

We will also create a personalised Teacher Bio page on our website, where you can express yourself and your teaching style so we can match you with students who are right for you.

STEP TWO

Our phone lines and inbox are full of new student enquiries every day, so whenever we contact a student in your area, we will arrange to set up a trial lesson based on your availabilities. Our trial lesson offer requires you to conduct the lesson for free, but this is your chance to see if they are the right student for you; and if so, it is an opportunity to win over the student and build a long-lasting relationship.

STEP THREE

Once the student is yours, you are open to discuss ongoing lessons with them and add each lesson into your Calendar. This software also allows you to add lesson notes to keep for yourself or share with the student.

STEP FOUR

Through our software, you can directly bill your students for the lessons conducted, manage existing invoices and track every transaction any student has made.

Piano Lessons Australia will then send you a weekly bill for the lessons you've conducted, at a rate of 10% of each lesson's earning + \$5 per lesson administration fee. Your weekly fees must be paid in order to continually receive new students & to keep your existing student base.
